**Factors to note:** COVID-19 impacts brought a variety of barriers including fewer in-person events at which we could personally offer services, fewer students, students accessing services out of the area and others which accounts for the fewer total served. Many of the assaults disclosed occurred while students were living back in their “home” counties. In spite of these factors, we maintained on-campus, in-person services as well as creating virtual options for counseling, advocacy and education. All 24-hour services were maintained throughout this period.
